THE 2IN1 TUBE WITH UV AND BEAUTY LIGHT

smartsun – the new way of tanning

smartsun is the smart combination of red Beauty Light and gently tanning UV light in one tube. The result is smooth and soft skin and a naturally tanned complexion. This turns a visit to your favorite solarium into a new kind of experience. Red light takes care over the body and guarantees a unique skin feeling: velvety soft with a great, natural tan.

Feel it, see it, experience it!

Combine advantages

The perfect combination for a natural tan and velvety soft skin.

Red Beauty Light

- 570 – 720 nm
- Increases blood circulation
- Increases oxygen supply
- Increases collagen formation
- Pleasant feeling of warmth
- Increases well-being
- Reduces wrinkles and smoothes the skin

UV light

- Gives your skin a natural tan
- Increases pigment formation in the skin
- Bio-positive effects
- Vitamin D increase
- Healthy radiance
